

NEW!

INDEX Corporation introduces a better way to shop for tool holders

Just like INDEX TRAUB machines, our tool holders have been setting the standards for overall quality, accuracy and innovation for decades.

And don't forget that many of our tool holders can be used to add INDEX TRAUB quality to machine tools other than our own.

Now there is a better way to shop for our tool holders: The Infoshop

infoshop

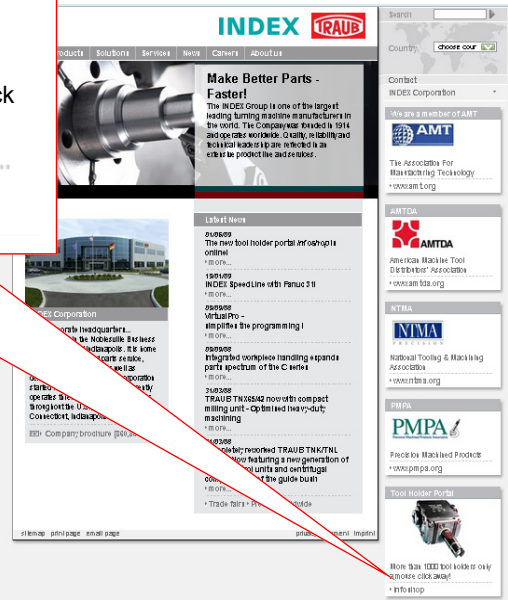

Tool Holder Portal

More than 1000 tool holders only a mouse click away!

► Infoshop

Visit www.index-usa.com and click on Infoshop in the bottom right corner.

- Quickly and easily browse more than 1000 tool holders, including VDI, Inch, Dovetail and HSK, using the simple yet powerful query forms. Or, search directly via item number.
- Download data sheets, dimensions, STEP-models and DXF-drawings for each holder.
- An availability display shows you immediately whether the tool holders are in stock, will be available soon, or are on backorder. We guarantee an availability of more than 95% of our complete range.

These are only some features of the new Infoshop. Come experience the advantages of this extensive database for yourself!
