

INDEX

**The idea behind it.
INDEX C100 and C200 with handling system.**

One step ahead.

The design

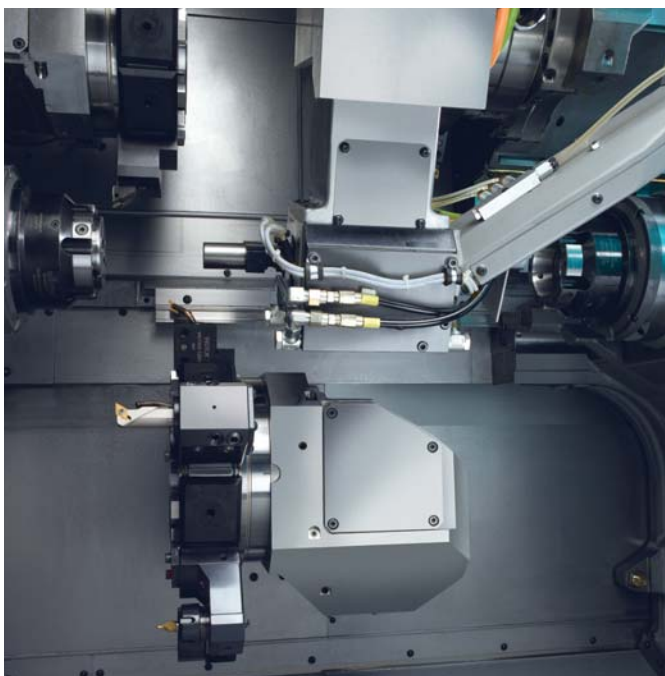

Integrated automation

The production turning machines INDEX C100 and C200 can be equipped optimally with the handling systems WHU and WHW for the economic machining of chuck or shaft parts. These compact solutions combine the productivity of a 3-turret machine with the current demands towards automation and quality control.

Technical data

Chuck parts		C100	C200
Max. diameter	mm	100	130
Max. length	mm	120	150
Max. weight	kg	3	5

Shaft parts		C100	C200
Max. diameter	mm	42	65
Max. length	mm	220	300
Max. weight	kg	3	5

For more information please ask for our brochure C100 / C200.
