

**Virtual Machine
bundled with a PC.**

One step ahead.

Virtual Machine bundled with a PC

**Ready to use –
because time is money!**

That's why we give you INDEX Virtual Machine also in a package with a powerful notebook or desktop PC – pre-installed and fully configured.

**Just switch it on and off
you go – everything else
has already been taken
care of!**

Be it INDEX single-spindle machines or INDEX multi-spindle machines – the ready-to-use pre-installed Virtual Machine in a package with a notebook or desktop PC makes your start easy!

Crucial benefit:

Using INDEX Virtual Machine maximizes your production time on the real machine!

New: "Ready to use":

Even more advantages with a complete package of Virtual Machine and a PC

- Fully prepared and installed – off you go
- Just switch it on and start working
- Choose between a notebook or a desktop PC

Notebook PC with docking station or desktop PC

- Performance and graphics display specifically tested and approved for using Virtual Machine
- Incl. 1 license of Virtual Machine optionally for single-spindle or multi-spindle machines
- Configured ready to use on a powerful mobile work station (notebook) or a stationary desktop PC

Other INDEX Virtualline products can be obtained by additional orders ready-configured on the notebook or desktop PC.
